Dated 14 Jun 63

Dear General,

I thank you so much for your kind letter of 14 Jun 63. As you know nothing would give me greater pleasure to be of any help to you. Unfortunately however, very recently I have had to help in selling large number of two sets of lottery tickets, one on behalf of the WVS and another on behalf of the Ladies Association of 515 Central EME Workshop, Bangalore. We have now received another lot from the Mysore Government. The aims and objects of all these lotteries are nearly same as the one of the Coorg Lottery Committee.

As an organiser of many large functions, you may kindly appreciate that selling a large number of lottery tickets in quick succession for similar objectives becomes somewhat difficult particularly for the ones that come afterwards. As Coorg Lottery will be the fourth one in quick succession, I am afraid, I may not be able to come up to your expectations to dispose off 5000 tickets.

I promise to do my best and I would like to start off in a small measure by requesting you to kindly send us about 500 tickets in the beginning. After we have built up some enthusiasm and if I see the response is good, I will send a signal to you for further tickets.

I will be grateful if you'll kindly send me books containing 500 tickets in the first instance.

I am indeed ashamed for not being able to come up to your expectations but I hope that you will kindly appreciate the reason and forgive me for this. I will

(.....P/2)

be grateful if you could send me some printed literature in the form of placards giving the details of the prizes to be awarded for display in various places.

With kind regards

Yours Sincerely

Chariappa
